

SmartPet

Premium Products

SmartPet Doors are premium pet products that provide a combination of durability, efficiency and security that cannot be matched by other pet doors. These Doors seal on all sides with a replaceable double-wiper gasket that combined with the double pane design makes SmartPet Doors one of the most energy efficient pet doors on the market. All SmartPet Doors come with a limited lifetime warranty.

SmartPet Doors are available in solid aluminum and smoked Lexan plastic.

- The anodized aluminum frame combined with the rigid construction of the lockable door flap, provides durability and added security for your home.
- The Lexan door is made of double-paned insulated Lexan plastic and is set in the same fully-gasketed aluminum frame as the aluminum door. Lighter weight than the aluminum door. Also comes with standard security lock.

Interesting Facts:

- SmartPet Doors use the same construction as the world's leading cooler/freezer doors
- The Lexan flap is see-thru
- The telescoping frame is easy to install. It can be installed in any door 1 3/4" thick or in any wall up to 11" thick
- Door closes quietly due to the concealed double-acting hinge
- All materials have been tested in snow, rain, humidity, frost and extreme temperature ranges to ensure dependable quality and performance
- SmartPet is constantly working on new technology to increase convenience and comfort for you and your pet.

SmartPet Door Advantages:
